

CrossCurrent, Inc. presents paper on Computer-Assisted Coding at AHIMA conference

Philadelphia, PA, October 5, 2007—Dennis McNannay, CEO of CrossCurrent, Inc., will present a paper today at the American Health Information Management Association (AHIMA) Computer-Assisted Coding (CAC) Software Standards Workshop. The paper, *Beyond Coding Accuracy: Three Perspectives on the Potential of Computer-Assisted Coding*, explores the impact that computer-assisted coding can have on reimbursement, outcomes research, and job growth for coders. "CAC technology plays an increasingly important role, and its impact can be felt in many areas," says McNannay. INCISIVE MD software provides CAC functionality as one part of its comprehensive reimbursement solution. AHIMA is the premier association of health information management (HIM) professionals.
