

INCISIVE™ MD exhibits at the NERVES Annual Meeting in Chicago

Chicago, IL April 24-26, 2008—CrossCurrent, Inc. is exhibiting its INCISIVE MD software at the NERVES (Neurosurgery Executives' Resource Value and Education Society) annual meeting. NERVES is the first national neurosurgery practice manager and administrator society in the United States. "This will be a great opportunity for us to introduce more neurosurgery clinic administrators to our revolutionary product" says Alex Nelson, VP of Sales and Marketing. INCISIVE MD is a comprehensive reimbursement software solution developed in collaboration with spine and neurosurgeons.

About CrossCurrent, Inc.

CrossCurrent, founded in 2002, is a healthcare information technology company dedicated to helping its customers increase revenue. CrossCurrent's INCISIVE™ software solutions provide innovative planning, coding and revenue management solutions designed specifically for orthopedic, spine and neurosurgeons.
